1. SUMMARY

Executive summary and background

The Amazing Brain Foundation for Advocacy, Education and Development (ABFAED) is a duly registered non-governmental organisation that formally transitioned in 2026 from over a decade of community-level educational development, anchored by Amazing Brain School Ltd (operating since 2010). Established to address persistent socioeconomic barriers in low-income urban settlements, ABFAED combines grassroots operational delivery with structured institutional advocacy.

Operating primarily from our base in Ilasamaja, Mushin Local Government Area, Lagos State, ABFAED builds formal institutional frameworks with statutory authorities, including the Lagos State Office for Disability Affairs (LASODA) and the National Orthopaedic Hospital, Igbobi (NOHIL), to deliver verified humanitarian, educational and developmental support.

2. LAUNCH PHASE

Initial launch highlights

Operational reach in 2026. No figures are given beyond those stated in the approved report.

Technology infrastructure

Secured an international hardware donation of 44 professional-grade laptops from Close the Gap International, arriving at the Lagos port for deployment to power our digital inclusion initiatives.

Full educational scholarships

An initial cohort of vulnerable primary and secondary students fully supported with tuition and learning materials.

Menstrual hygiene support

Adolescent girls reached through foundational menstrual health and hygiene management workshops.

PWD medical advocacy

Initial complex lower-limb and orthopaedic cases navigated in partnership with specialist medical institutions.

3. PILLARS

Core pillar deliverables

What each pillar set out to do and how it is delivered.

PILLAR A

PWD healthcare & inclusion advocacy

Intervention

Facilitating clinical evaluations, subsidised orthopaedic consultations and mobility rehabilitation for individuals living with severe lower-limb conditions.

Execution

Partnering directly with NOHIL and LASODA to establish safe, accessible healthcare and surgical care pathways for low-income beneficiaries.

Commitment

All casework is managed under strict data privacy, confidentiality and beneficiary dignity protocols.

PILLAR B

Menstrual hygiene & girl-child education

Intervention

Distributing sanitary kits and running foundational reproductive health management seminars across educational institutions in Mushin LGA.

Objective

Mitigate period-related school absenteeism and remove health-related barriers keeping adolescent girls from completing their education.

PILLAR C

Solar digital learning hub

Intervention

Establishing a solar-powered computer laboratory at the Amazing Brain School facility to overcome local grid instability.

Major milestone

Bolstered by an international partnership with Close the Gap International, which contributed a foundational consignment of 44 laptops to equip the hub for student digital literacy and coding training.

Objective

Providing youth with reliable, hands-on access to digital skills, basic programming modules and internet-based educational resources.

PILLAR D

Sustainable scholarship fund

Intervention

Administering educational grants covering tuition, required textbooks, uniforms and basic support.

Objective

Sustaining formal school enrolment for orphaned, vulnerable and displaced children at the primary and secondary levels.

4. PERFORMANCE

Programme performance matrix

PWD medical advocacy

OUTPUT
Orthopaedic clinical evaluations and surgical navigation.

LOCATION
NOHIL / Ilasamaja

INITIAL REACH
Initial casework management and hospital liaison.

STATUS
Active

Girl-child hygiene

OUTPUT
Sanitary kit distribution and hygiene education.

LOCATION
Mushin LGA schools

INITIAL REACH
Initial school-level outreach and distribution.

STATUS
Ongoing

Solar e-learning hub

OUTPUT
Computer skills, coding workshops and 44-laptop deployment via Close the Gap International.

LOCATION
Amazing Brain School

INITIAL REACH
Infrastructure deployment and pilot training.

STATUS
Operational

Child scholarship fund

OUTPUT
Tuition cover, books and school supplies.

LOCATION
Ilasamaja and environs

INITIAL REACH
Initial cohort of supported students.

STATUS
Sustained

Institutional advocacy

OUTPUT
Policy engagement on disability compliance in public facilities.

LOCATION
Lagos State (LASODA)

INITIAL REACH
Initial stakeholder dialogues and framework review.

STATUS
Active

5. ACCOUNTABILITY

Governance and institutional compliance

ABFAED adheres to transparent, ethical and accountable operational standards, meeting national regulatory benchmarks and international non-profit frameworks.

Corporate Affairs Commission (CAC)

Officially registered as an Incorporated Trustee non-governmental organisation.

Nigeria Network of NGOs (NNNGO)

Active certified institutional member.

TechSoup validation

Globally verified for organisational integrity and technological infrastructure deployment eligibility.

Board governance

Directed by an independent Board of Trustees upholding rigorous beneficiary privacy, data protection and ethical safeguards.

6. LOOKING AHEAD

Strategic outlook and growth

Building on our foundational heritage from Amazing Brain School Ltd, ABFAED's strategic roadmap focuses on expanding verifiable community impact.

Diaspora medical missions

Developing strategic partnerships with international diaspora healthcare networks (for example NANNNA and ANNPNA) to scale PWD surgical intervention support.

Infrastructure scaling

Expanding the capacity and curriculum of the Ilasamaja Solar Digital Hub following the arrival of the 44-laptop consignment.

Menstrual equity expansion

Broadening hygiene management initiatives across underserved public schools in Lagos State.

OFFICIAL PUBLICATION NOTICE

This inaugural Programme & Impact Report has been approved by the Board of Trustees for public disclosure on the official website.
